

Features

- Constructed from 3/4" impact resistant plastic
- High visibility safety yellow
- Quick release spindle construction for easy reel loading on either side
- Pivoting, rubber feet and wide base prevents sliding or tipping
- Compact design perfect for storage and transport
- Made in America

Storing, transporting and using your cable reels on site is no longer a multi-step process. With the new U-TECK **Reel-Deal™ Cable Caddy**, you can do all of this with one simple tool.

Made from solid 3/4" impact resistant plastic, the **Reel-Deal™** can handle the everyday wear and tear all of your equipment is subjected to, and then some. The non-fading safety yellow color gives you extra visibility. Notched handle makes for easy pick-up and go!

Most reel caddy's have wheels or simple, easy to tip steel framing. The most import feature that makes the **Reel-Deal™** stand out from the rest is the stout, compact design and pivoting rubber feet that allows on-the-spot security with no slipping, no tipping, even on unlevel terrain. Holds reels with a combined weight of up to 200 lbs!.

Other unique features include the quick-release spindle construction for easy reel loading from either side, and the reel divider that allows each reel to move independently from the others. This allows you to pull cable from more than one reel - in opposite directions, at the same time!

Whether you do work for telecoms or CATV's, the **Reel-Deal™ Cable Caddy** is ready to go to work for you.
