BURIED CLOSURES

BURIED CLOSURE HOUSING

STOP AIR LEAKS
Designed to protect your pressurized closure from the weight of backfill, as well as the added weight of vehicles that run over the splice location, causing costly ghost leaks. Reduces air pressure problems around end plates and protects buried closures in rocky soil.

POLE MOUNTED LADDER BRACKET

Pole Mounted Ladder Brackets are used in conditions where Distribution Cabinets, UPS Cabinets and other equipment is mounted onto utility poles and where technicians are using ladders to access them. Too often the angle of the ladder is positioned under the cabinets creating an unsafe angle for the worker to stand, open the cabinet, and perform routine functions.
