

# PED MAT

U-TECK has developed a herbicide-free alternative to control unwanted vegetation around pedestals. The solution is now known as WeedEnder™ Ped-Mat.

Comprised of a dense, multi-directional needling of specially formulated synthetic polyester fibers, the material is additionally impregnated with a special resin with ultraviolet inhibitors and fire resistant properties. Constructed from 100% recycled material, WeedEnder™ increases visibility, decreases herbicide use and site maintenance, and proves to be extremely durable.

## FEATURES:

- Fire-retardant
- Long-lasting 15 year warranty
- Improved visibility, reduces damage
- Easy to install
- Made from Recycled Plastic
- No Runoff
- No herbicides

While Ped-Mats increase visibility around your pedestals, it is also great for public relations by eliminating unsightly overgrown grass around pedestals or other fixtures on or next to someone's manicured lawn. You get all of these benefits without the burden of weed-eating or unsightly herbicide use.

WeedEnder™ is also available in rolls for a larger coverage area. Rolls can be from 1 ft to 8 ft wide, and up to 250 foot length. Installation is simple. Determine the size of the pedestal and cut the Ped-Mat along the appropriate perforated lines and stake in place.

# PED MAT SPECS

Ped-Mat 1 is die-cut and perforated to fit around most round pedestals.  
 Ped-Mat 2 is die-cut and perforated to fit around most square or rectangular pedestals.  
 Ped-Mat 3 is not die-cut and fits in those hard-to-fit areas, such as next to poles, other pedestals, or other obstructions. You cut to fit.

**WeedEnder™ Rolls:** Available in 3' and 6' Width X 25' length. Longer rolls are available.

**Joining Strip** is a 4" x 25' strip to join (splice) the WeedEnder™ rolls.

**Hardened Steel General Purpose Spiral Spikes** are 6" long and are designed to hold the mat in place. Packed 100/Box.

**316 Stainless Steel Staples** measure 1 1/4" x 5/8" and are packed 2,000 per box. These are used to join two widths of WeedEnder™ material with the joining strip.

**Manual Staple Gun** holds 150 stainless steel staples and is pre-set to allow staple penetration through the material for splices and repairs.

**Adhesive/Caulk** is specially formulated for primerless adhesion to the WeedEnder material and the metal or wooden guardrail posts (in wet or dry conditions) to inhibit weed growth.
